Quick and easy to make, you can whip one up to coordinate with every room in your house!

You will need:

• 3/16” foamboard
• FoamWerks V-Groove Cutter (WC-2001)
• FoamWerks Straight Cutter (WC-6001)
• FoamWerks Circle Cutter (WA-8001)
• FoamWerks Hole Drill (WD-8010)
• FoamWerks Channel Rail (W-3001)
• 1/2 yard of fabric
• 1/2 yard of batting or white felt
• Coordinating ribbon and trim
• Tape gun
• Spray adhesive
• Glue gun
• Large rubber band

* This project is an excerpt from Foamboard Magic by Eileen L. Hull. Copyright 2009 Logan Graphic Products, Inc.
INSTRUCTIONS:
1. Measure tissue box and note dimensions. Each brand differs slightly. Directions are given for a box 5 1/2" x 4 1/2" x 4 1/2". Make changes according to dimensions of your box.
2. Cut batting to 17" square.
3. Cut fabric to 18" square.
4. Using Straight Cutter and Channel Rail, cut foamboard 16" square.
5. With V-Groove Cutter, make cuts as seen in Diagram 1. With Circle Cutter, cut a 2 1/2" circle centered in the top of the box for the tissue opening. Trim off excess board from each corner.
6. Trace outline of box onto batting and trim off excess from corners and in circle. On right side, cover box with a coat of spray adhesive. Lay batting over box, and adhere all over. Lay fabric under box and trace. Trim excess fabric but leave some room to tuck under box edges for smooth corners. Run tape gun around the bottom of each side inside the box. Fold fabric up underneath and press to adhere in place. For sides of box, run a line of tape close to the edge on the wrong sides of all flaps. Wrap fabric around to back and press to secure.
7. For circle opening, cut a 2" hole and snip fabric about every 1/2" in close to the edge of the opening. Run a line of tape just inside the circle opening on the wrong side. Wrap fabric under circle cutout and smooth out.
8. Fold box together and put a rubber band around it to hold in place. Trim ribbon to size. Glue with glue gun around box on top, bottom and surrounding circle opening. Remove rubber bands after glue has set.
Finished size: 5 3/4" x 4 3/4" x 4 3/4"
